

This machine and many others can be found at hadanichmachine.com!

Category	Tables - Rotary	
Manufacturer	Producto	
Model	0140	
Serial Number	G690-1	
Year	11/1993	
Table Diameter	42.00 in	1066.8 mm
Table Capacity	32000 lbs	14514.94 kg
Base Length	39.00 in	990.6 mm
Base Width	39.00 in	990.6 mm
Table Overall Height	13.00 in	330.2 mm
T-Slot Spacing	8 Equally Spaced Radial Slots	
Top T-Slot Width	0.69 in	17.53 mm
Bottom T-Slot Width	1.25 in	31.75 mm
Table Drive Power	3.00 HP	2.24 kW
Programmable Angular Resolution	.001 Degree	
Table Rotational Speed Range	2 RPM	
Positioning Accuracy	+/- 4 Arcseconds (with Inductosyn)	
Repeatability	2 Arcseconds	
Power	3 ph / 50 – 60 Hz / 200 – 500 V Existing	
Additional	Parallelism top to bottom: .0004 inches(.01 mm), pilot hole diameter: 1.500 - 1.5005 inch, pilot hole runout: .0002 inch TIR, table top flatness: .0005 TIR, table top radial load rating: 17,000 lbs (7727 kg), table moment rating: 19,800 ft/lbs (26,845 nm), master slot size .812 inch, precision 4-track preloaded ball bearing, table sealed against coolant, chips, and contaminants, base and table of cast iron - stress relieved for long term stability, dual lead worm externally adjustable for backlash take-up, worm drive flood lubricated, Getty's servo drive motor, Farrand precision rotary scale, table machined to accept a Vortec	

unit, 5:1 planetary gearbox

Weight 3700 lbs 1678.29 kg

Condition Excellent
